BeSafe Go Beyond (all versions)

Stroller compatibility

BeSafe Go Beyond fits on a number of strollers, by using the adapters recommended by the stroller manufacturers. Make sure that you position the seat only in the way that is defined by the stroller manufacturer and check that the seat is fixed to the adapters. The fit compatibility has been confirmed by BeSafe for the models listed below. The fit with other strollers may also be feasible, but we have not tested them yet. When using the seat on a stroller, always ensure that it can be attached securely and provides good stability during use. This stroller list is applicable for all models of BeSafe Go Beyond. For the latest stroller list check www.besafe.com.
